Colour Doppler System

Compact and streamlined design

From Succeed to Exceed

The Z6Vet is a well-balanced choice for those who require both the value of features from traditional Colour Doppler Ultrasound Systems and the accessibility without any budget constraint. Inherited from Mindray's remarkable design and success in the field of developing ultrasound, the Z6Vet will offer you amazing image quality and functionality with refreshing experience: we've done better to help you achieve more.

Full featured imaging technology

With full-featured imaging technologies which includes iBeam™, iClear™, Phase Shift THI, etc, Z6Vet will bring you more diagnostic confidence in improving patient care across a range of clinical applications

Comprehensive Clinical Applications

To improve your flexibility in different clinical applications, Z6Vet provides newly designed probes which are lightweight and durable, ready to perform in any clinical situation.

Prominent Ergonomics

To carry forward the classical ergonomic design of Mindray's Ultrasound, the Z6Vet features a smart new shape, compact size and is lightweight for enhanced mobility that allows Z6Vet to perform anywhere, any time.

Transducers

6C2P 5-8.5MHz
Convex Transducer

3C5P 2-5MHz
Convex Transducer

2P2P 2-3.5MHz
Phased Transducer

6LE7P 5-8.5MHz
Rectal Transducer

7L5P 5-10MHz
Linear Transducer

L14-6P 8-14MHz
Linear Transducer

Accessories

Padded Carry Bag

Battery Pack

Mobile Trolley

Standoffs

Specifications

System Weight	8.8kg with battery	Transducers	Range of transducers available
Dimensions	19 x 41.5 x 37.8cm	Colour Doppler	Yes
Display	15" diagonal LCD, 1024 x 768	Portable	Yes
Architecture	All digital broadband	Warranty	18 month warranty on system
Power	AC Power or lithium ion battery	Manufacturer	Mindray
